EDUCATION

B.Tech Computer Science and Engineering (Artificial Intelligence) <i>Bennett University</i>	Sep 2023 – Sep 2027 <i>Greater Noida Uttar Pradesh</i>
Senior Secondary <i>Lotus Valley International School 86.2%</i>	2018 – 2023 <i>Noida Uttar Pradesh</i>
Secondary <i>Lotus Valley International School 91.8%</i>	2008 – 2018 <i>Noida Uttar Pradesh</i>

EXPERIENCE

Artificial Intelligence Intern <i>EXTION INFOTECH</i>	June 2024 – July 2024 <i>Remote</i>
---	--

Developed projects using Deep Learning and Machine Learning with **Python, TensorFlow, and PyTorch.**

PROJECTS

TransSketchGAN - A Sketch to Image Generator <i>Python, Pytorch, Pytorch Lightning</i>	March 15 2026
• Built a multi-modal GAN that generates faces from sketches + text descriptions using AdaIN conditioning • Implemented stable GAN training with hinge loss, spectral normalisation, EMA, gradient accumulation, and FP16 mixed-precision on PyTorch Lightning • Developed a Full stack project using FASTAPI and React for Inference	
SeriniBot <i>Python, Pytorch, FastAPI, React(Next.JS)</i>	April 19 2025
• AI-powered, empathetic support at your fingertips • Implemented Finetuned Transformers model to provide assistance with mental health issues. • Fullstack project with React frontend and FastAPI backend. • Designed to be Light-Weight and easy to deploy locally	
Material Weather <i>Flutter, Dart, Bloc</i>	July 1 2025
• A modern, material design-inspired weather application built with Flutter and Bloc. • Implemented Bloc State Management Architecture and GetX Dependency Injections for efficient operation.	
Hand Gesture Recognition And Survey Application <i>Python, Pytorch, Dart, Flutter</i>	December 20 2024
• An AI/ML based project to develop and deploy various CNN models for hand gesture classification trained on the Hagrid dataset and collect survey data through a companion mobile app. • Implemented On Device private inference and Developed CNN model for real time image classification	

SKILLS

Languages: Java, Python, C/C++, SQL (MySQL), JavaScript, HTML/CSS, Go, Dart
Frameworks: React, Node.js, FastAPI, Tensorflow, Pytorch, Flutter, Bloc
Developer Tools: Git, VS Code, PyCharm, IntelliJ, Eclipse, Docker, AWS
Soft Skills: Communication, Problem Solving, Teamwork, Adaptability, Time Management

CERTIFICATIONS

AWS Certified Cloud Practitioner - Amazon Web Services	Apr 2026
Introduction to Docker and Containers – Coursera/Pearson	Jan 2026
Generative AI Engineering with LLMs Specialization – Coursera/IBM	Jul 2025
Machine Learning Specialization – Coursera	Dec 2024
Programming in C++ Specialization – Coursera	Sep 2024
Artificial Intelligence A-Z (Pytorch) – Udemy	Jul 2024

ACHIEVEMENTS

- 9.8 CGPA - Bennett University
- 4 times Dean's List Award Winner for exceptional academic performance
- First Place in Bug Spray (Bug identification and rectification contest)
